

New dumping investigation

Shock absorbers, of the kind used in motorcycles and velocipedes, from China

Resolution No. 235/2018 issued by the Commerce Secretariat of the Ministry of Production, published on April 23, 2018 in the Official Gazette, initiated an investigation to determine the existence of alleged dumping in Shock absorbers, of the kind used un motorcycles (including mopeds) and velocipedes equipped with auxiliary motor with sidecar or without it, exports to Argentina, being China the country of origin and the tariff classifications under the MERCOSUR Common Nomenclature No. 8714.10.00 y 8714.99.90.

Certain terms are computed as of this publication, for exporters or foreign producers of Shock absorbers of the above mentioned country and their importers into Argentina to participate in this investigation (e.g. to submit questionnaires; to offer de production of evidence; etc.). The participation in the investigation of interested parties is advisable to avoid the application of antidumping duties or, at least, to minimize their impact.

For further information or assistance to participate in this new investigation please do not hesitate to contact:
