

## **TozziniFreire's Moira-Huggard Caine Receives WLG Kemmler Award**

Washington, DC/ Moira Huggard-Caine, a partner with TozziniFreire Advogados of Brazil, became the seventh recipient of the World Law Group's Kemmler Award, which is the highest honour bestowed by the WLG. The award was presented to Moira by WLG President Ian Davis during the closing ceremony of the WLG's recent Fall Conference in Istanbul, Turkey.

The award is named after the late Dr. Klaus Kemmler of the firm now known as CMS Hasche Sigle in Germany, who made many important contributions to the WLG during its formative years before his untimely passing in 1990.

Moira's first contact with the World Law Group came in 1997 when she was asked to help organize the WLG conference being hosted that year by TozziniFreire in São Paulo. Since then, she has been a regular participant at WLG meetings and served on the Marketing Committee for several years.

She was elected to the Board in 2007 and became Chair of that committee, renaming it the Business Development Committee to emphasize its primary function of implementing strategies to increase business among WLG member firms. Among other contributions in this role, she helped create some of the WLG's first industry groups and led efforts to improve referral reporting by member firms. She also assisted with the organization of the network's first one-day client conference held in Washington in 2009.

Earlier in 2011, Moira agreed to serve as Coordinator of the WLG's Global Internship Program, where her goals are to raise awareness of the program, facilitate more matches between member firms wishing to host interns and interested candidates, and create a guide of best practices.

Over the years, she has demonstrated a very high level of commitment and enthusiasm for the WLG. Please join us in congratulating Moira for this tremendous acknowledgement of her contributions by her peers in the WLG network.
