HISTORY

The firm was created in June 1991 when, following the transformation of the political and economic systems of Poland, there was born a free market for legal services focused on providing assistance in changes of ownership with new Polish and foreign investments. The creation of the firm and its growth were predicated upon the predictions of its founders as to how the legal market would develop in the new market reality. They proved to be right, as SK&S is now one of the leading law firms in Poland. To better respond to the needs of our clients in the western regions of the country, we opened an office in Poznań in 1997, and dynamic economic growth in the south prompted us to launch our office in Katowice in 1999.
