World Law Group Launches Merger Control Guide 2020

If your organization is involved in a merger, World Law Group's (*WLG*) *Merger Control Guide 2020* could be helpful in providing a first, fast overview of merger control rules in 91 jurisdictions world-wide. In addition to the printed booklet, there is an electronic version available.

The *WLG Merger Control Guide 2020* provides information on two of the most important questions related to merger control: "Thresholds" are the relevant prerequisites which trigger an obligation under merger control rules to notify a national competition authority of a transaction. "Stages" describe the procedure and the investigation periods once the competition authority has been notified of a transaction.

Many countries worldwide have implemented merger control regimes and even more are planning to do so. Recently, competition authorities have imposed hefty fines for companies that failed to file a merger.

World Law Group is ranked an Elite Global Law Firm Network by Chambers and Partners. The network's 59 premier independent law firms provide market-leading expertise and comprehensive business law services from more than 400 offices in major business centers in over 85 countries.

Written by members of the WLG Antitrust & Competition Practice Group, the *WLG Merger Control Guide 2020* draws on the experience and expertise of highly regarded competition lawyers world-wide to provide information across 91 merger control regimes covered in the guide.
