WLG Anti-corruption Guide 2022

World Law Group's Compliance & Investigation Group has launched the **WLG Anti-corruption Guide 2022**—an easy-to-read comparative guide on anti-corruption laws applicable to corporations in different countries.

The straightforward guide covers relevant aspects of anti-corruption, such as bilateral and multilateral conventions that different countries belong to, local laws applicable to companies, the liability of companies for acts of corruption, punishment of individuals, bribery of government officials, and more.

The focus is on corporations, not individuals. Where a country does not provide for corporate liability in the anti-corruption arena, those chapters may mention the existence of ongoing bills of law in this regard or provide further context.

Authored by lawyers from WLG member firms, the guide currently covers anti-corruption in 21 countries, and we will continue to add more.

Check out the guide [here](#).
